## About Us

Concord Scientific Pty Ltd is an Australian-owned company providing specialist technical services for advanced Gas Chromatography (GC) and High Performance Liquid Chromatography (HPLC) systems, with expertise across Agilent and Waters platforms.

Founded in December 2024, the company has quickly earned the trust of a growing customer base. Under the leadership of Mr. Raymond Ibarra—former Field Service Engineer with nearly 15 years of hands-on experience servicing Agilent GCs and LCs, as well as Waters HPLC, UHPLC, and UPLC systems—our services are designed to minimize downtime, ensure regulatory compliance, and optimize instrument performance.

We also supply a broad range of laboratory instruments, scientific equipment, and consumables. Ranging from HPLC Spare Parts, GC Spare Parts, Sample Preparation, Ultrapure Water, HPLC Columns, Stability Test Equipment, Sugar Analysis, Solvent Recyclers for HPLCs, and many more!

Our clientele spans the pharmaceutical industry, contract manufacturers, testing laboratories, animal health, food and beverage sectors, and university research facilities—each supported by our commitment to exceptional service and technical expertise.

# Technical Services

## Specialized Technical Services – Concord Scientific Pty Ltd

At Concord Scientific Pty Ltd, we deliver expert technical support for a wide range of Chromatography systems, with a particular focus on Agilent and Waters platforms. Our services span preventive maintenance, troubleshooting, qualification, and system relocation to ensure maximum reliability and regulatory compliance.

### Gas Chromatography Systems (Agilent GC Platform)

- Preventive maintenance and repairs for Agilent GC7890, GC6890, and GC6850 systems equipped with Split/Splitless (S/SL) inlets, Flame Ionization Detectors (FID), and Thermal Conductivity Detectors (TCD)
- Servicing and repair of Agilent Headspace Samplers: G1888 and G7697A
- Expert troubleshooting of chromatographic performance issues
- Installation and relocation of complete GC systems

### Liquid Chromatography Systems – Agilent

- Preventive maintenance and repairs for Agilent LC1100, LC1200, LC1260, and LC1290 systems with G1329 ALSr or G4226 ALS autosamplers and DAD, MWD, or VWD UV detectors
- Module-specific servicing and repair
- Diagnosis and resolution of chromatographic issues

### Liquid Chromatography Systems – Waters

- Preventive maintenance and repairs for Waters Alliance 2695, Acquity UPLC Classic, H-Class, I-Class, and Arc UHPLC systems, including detectors such as 2414, 2489, 2998, 2475, 2432, PDA, TUV, RI, and FLR
- Comprehensive servicing and repair of Waters LC modules
- Troubleshooting and resolution of chromatographic challenges
- Qualification services (IQ, OQ, PQ) using Empower 3 SQT
- Full relocation support for LC and UPLC systems
